

Vision / Mission /PEO's

Diploma Program Mechanical Engineering (Production)

Vision

To prepare job ready students with ability to adopt and adapt to new technology field of mechanical engineering and allied field grow

Mission

To create a learning ambience conducive for sound academic practices in the field of Mechanical engineering and allied fields

To provide strong communication skills to effectively become part of the team/team leader with a sense of societal and ethical consciousness

To prepare students capable of continuing their education/professional growth as per the requirement of their professional aspirations

PEOs

Student will possess:

- 1) Strong fundamental knowledge and strong supervisory skills to develop solutions for real life mechanical engineering and allied field problems
- 2) Effective communication skills, ethical attitude and will be able to cope with multi-disciplinary approach as per the need of the industry
- 3) Leadership quality with inter personal communication to work effectively
- 4) Capability of adopting to rapidly changing technology and be a life-long learner

Vision / Mission /PEO's

Diploma Program Civil Engineering

Vision

Prepare high quality professionals with practical experiences to meet the requirement of construction industry

Mission

To provide strong fundamental knowledge and skills in civil engineering through comprehensive curriculum with hands on experience

To provide conducive environment to students so as to make them creative contributors in their profession with professional and ethical values

To provide soft skills so that the graduates can work harmoniously in teams or as team leader with strong sense of societal and ethical consciousness

PEOs

- 1) The graduate will possess knowledge of strong fundamentals and supervisory skills to be effective contributors to construction industry and allied fields.
- 2) The graduates will possess critical thinking and real-life problem-solving skills
- 3) The graduates will be effective communicator with moral and ethical attitude to meet the employers and societal needs.
- 4) The graduates will be capable of self-learning and growth so as to pursue higher studies and professional growth and be a life-long learner.

Vision / Mission /PEO's

Diploma Program Computer Science and Engineering

Vision

To produce highly trained innovative computer engineers with strong ethical consciousness and cater to the needs of relevant industry

Mission

To focus on creating life-long learning ambience which is paramount to computer science to contribute in multi-disciplinary fields

To provide strong ethical and moral values to students

PEOs

- 1) The student will possess strong fundamental knowledge, skills and attitude to be able to apply principles of computer science to identify and solve real world problems
- 2) The students will be capable of excelling in professional career with life long learning skills
- 3) The students will possess capability of continuing higher education, research and be an entrepreneur
- 4) The students will possess effective leadership qualities with ethical and strong soft skills

Vision / Mission /PEO's

Diploma Program Mechanical Engineering (Automobile)

Vision

To be a prominent Automobile Engineering Department in the region

Mission

To offer high quality education and training for successful career and higher studies in Automobile Engineering and allied fields

To provide technical competence to students in profession with effective communication, team work and leadership to meet the challenges of the society.

PEOs

- 1) Graduates will possess strong fundamentals for successful profession and / or higher studies in Automobile Engineering and allied fields
- 2) Graduates will adapt to the modern engineering tools for problem solving and maintenance to meet the needs of automobile and allied engineering streams by engaging in life-long learning.
- 3) Graduates will be a professional with ethical attitude, communication and managerial skills, team work and

Vision / Mission /PEO's

Diploma program in Electrical Engineering

Vision

To emerge as leading department catering to the needs of power, electrical and allied industry in the region

Mission

To evolve as a competent electrical engineering department contributing to the socio-economic region by preparing job ready technicians in electrical engineering and allied fields

Provide conducive learning environment for self-growth for students and faculty

PEOs

1. Graduates from electrical engineering department will possess strong foundation in electrical engineering to be able to pursue successful career/higher education/be an entrepreneur .
2. Graduates will possess knowledge of electrical engineering and allied disciplines to be able to solve real life problems using technically sound and environmentally friendly solutions.
3. Graduates will possess leadership & soft skills with ethical consciousness and so as to effectively communicate and function in multi-disciplinary fields.
4. Graduates will possess attitude to learn and adopt technology in his respective field and be a life-long learner.
